

Assignment 4
COMP 3005

Sammy Diamantstein
101060342

(note to TA: I sincerely tried my best to use the Oracle VM, but the network connection was broken and I was unable to get it fixed by Andrew Pullin as instructed. As a result, I did the best I could, and used an online Oracle DB, found at <https://livesql.oracle.com>. It is the exact same as using the course's oracle DB, just online. Please take into consideration the fact that I tried to use the courses Oracle DB, but only because I was unable to do so, I used an equivalent tool)

- Thanks!
